ABHISHEK KUMAR MISHRA

8207768304 | abhishekkumarmishra82077@gmail.com | linkedin.com/in/abhishekmishra82077 | Uttar Pradesh, India

EDUCATION

Galgotias University, Greater Noida *June 2020 – June 2024*
Bachelor of Technology in Computer Science and Engineering (AI & ML) **CGPA: 8.28/10**

TECHNICAL SKILLS

Languages: C++, Python, JavaScript (ES6+), SQL, HTML5, CSS3
Frameworks & Libraries: React.js, Node.js, Express.js, RESTful APIs
Databases: MySQL, Database Optimization, Query Performance Tuning
Tools & Technologies: Git, AWS, Data Pipelines, Responsive Design, API Integration
Core Competencies: Full Stack Development, Frontend Architecture, Problem Solving, Clean Code Practices

PROFESSIONAL EXPERIENCE

Full Stack Web Development Intern *December 2024 – Present*
Future Interns, Noida, Uttar Pradesh

- Developing responsive UI components using JavaScript, HTML5, CSS3 with focus on accessibility and cross-browser compatibility
- Implementing backend logic and API integration to support dynamic application features, improving data flow efficiency
- Optimizing application performance through debugging and testing, ensuring smooth functionality across devices
- Collaborating in agile environment to deliver high-quality, user-focused web solutions aligned with project requirements

Web Development Intern *July 2024 – September 2024*
Qveto Technologies, Noida, Uttar Pradesh

- Built complete Job Listing module using React.js, Node.js, and MySQL with responsive design for seamless desktop and mobile experience
- Designed interactive dashboards and dynamic forms that increased user engagement by 30% and improved data accuracy
- Optimized backend queries and API routes, reducing average load times by 40% and significantly improving application performance
- Conducted comprehensive debugging and testing to maintain platform stability during peak usage periods
- Collaborated with cross-functional teams using Git version control, following clean code practices and agile methodologies

KEY PROJECTS

Task Management System | *React.js, Node.js, MySQL*

- Developed full-stack task management application with user authentication, real-time updates, and priority-based sorting
- Implemented RESTful API architecture with optimized database queries for efficient data retrieval and manipulation
- Designed intuitive UI with drag-and-drop functionality and responsive design for enhanced user productivity

Expense Tracker Application | *JavaScript, HTML5, CSS3, SQL*

- Created expense tracking system with data visualization, category-based filtering, and export functionality
- Utilized SQL database for efficient data storage and retrieval with optimized query performance
- Implemented client-side validation and error handling for improved user experience and data integrity

CERTIFICATIONS & ACHIEVEMENTS

- **Data Engineering Virtual Internship** – AWS Academy: Designed and optimized secure data pipelines and cloud-based solutions
- **C++ Programming Certificate** – Coding Ninjas: Advanced problem-solving and algorithmic thinking
